A Fire Which Broke Out in a Stable Does Large Damage. Question of Rates.

(Special to The Times-Dispatch.) NORFOLK, VA., May 23.—The Executive Committee of the Jamestown Exposition Company, at its meeting on Thursday, will receive and probably win adopt a new plan for the grouping and construction of the main buildings and the design for the lay-off of the exposition site. The ground plan, which was prepared some months ago, copies of which are now on exhibition at the company's headquarters, has virtually been discarded and at Thursday's meeting the new plan will doubtless be approved, as presented, and the proper committees will be authorized to go ahead with the preliminaries.

convention will be called to order in St. Vincent's Hospital to-merrow afternoon at 5 o'clock, and it will be in session for three days.

The whole of Wednesday will be devoted to addresses and reports of standing committees, and in the afternoon of that day a paper will be read by a member of the Maryland Nurses' Association relating to the work of the association in that State.

This is the first time that Norfolk has had the honor of entertaining the members of this association and everything possible will be done to make this session a most pleaant and profitable one. Thursday the association will visit the Hampton Roads Yacht Club, where a delightful dinner will be served.

Mr. William H. Bosley, of Baltimore, and Mr. George L. Barton, of Suffolk, president and general manager, respectively, of the Suffolk and Carolina Railway, are in the city to-day, holding a conference relative to the business of their road Both Mr. Bosley and Mr. Barton denied that their visit at this time carried any significance, and, furthermore, relievated their denials made some days ago of the report that their company would absorb the Carolina divisions of the Norfolk and Southern Railway.

2000 FIRE.

A fire, the origin of which is unknown, broke out about 3:40 o'clock yesterday morning in the stables just in the rear of the hay and grain establishment of Lindsay and Company, on the corner of Crawford and Columbia Streets, and before the blaze was extinguished \$20,000 worth of damage hall been done. The fire spread rapidly and soon the Lindsay mattress factory, an oil and paint store house occupied by Lindsay farming implement establishment were enveloped in flames.

A NURSE'S CHOICE PRIMARY THE

A professional trained nurse sees every kind of medicine prescribed and she knows which one gives the results. It she is sick she can choose just what she needs, having seen it used successfully on hundreds of cases. Miss Rthel Williams of 143 W. 142d St., N. Y., writes us:

writes us:
"Blood Wine' has been of great
value to me. When after a most diffi-

cult case I was all run down I turned to 'Blood Wine' for relief. I had long suffered from rheumatism and had used linjments in vain, although I knew the disease could only be cured through the blood. I knew of the marvellous cures of 'Blood Wine' and so bought a bottle. The effect was almost instantaneous. From the first day I began to improve, and now I am thoroughly cured by three bottles of 'Blood Wine.'"

President Orcutt Discusses Reasons Why Ship-Building in America Is High.

America Is High.

(Ev Associated Press.)

NEW YORK, May 23.—The Merchant Martne Commission, authorized by the Pitty-eighth Congress to consider and recommend legislation for the development of the American merchant marine began its first session here to-day. Among those head was C. B. Orcutt, president of the Newport News Shipbullding Company, who told the commission that ships can be built in England for seventy-five per cent. Jose than they can be built in England for seventy-five per cent. Jose that difference, he asserted, was that thirty-five per cent, more was paid in the yards of this country than in Great Britain, and at the same time there is forty per cent, in the cost of material in favor of the English builders. He said the protective tariff was responsible for the difference in the cost of material. In a latter statement, however, he corrected his estimate from forty to fifty per cent. Mr. Oroutt said that while a few battleships has been built in American yards for foreign countries, he was of the opinion that two were not built at a profit. He knew that American builders made tenders to both Russia and Japan, but although the bids were almost down to cost they were rejected absolutely as too high.

Rear-Admiral Bowles expressed similar opinion as to the cost of the battleships and the lack of profit in them. Lewis Nixon favored differential dutles. Thomas Clyde spoke for subsidies.

DANGEROUS

GOWAN'S PNEUMONIA CURE

GOWAN MEDICAL CO., DURHAM, N. C.

of the city are entitled to participate in the primaries this evening and the polis will be kept open at all the precincts until

The City Democratic Committee will meet at Sanger Hall at 9 o'clock to-night, to receive and make public the returns.

The issue before the Democrats of Richmond in their primaries for the election of sixty-one delegates to the State convention this evening is whether the primary system of nominating candidates for public office, inaugurated after long years of struggle, shall be perpetuated, or whether the voters are willing to return to the old method of ward meetings, conventions and legislative caucuses.

The lines of battle are clearly drawn between the friends and enemics of the system of popular nominations, and the slogan on both sides is "War to the knife, and knife to the hilt." The respective forces were lining up for the struggle last night, and all the forenon to-day will be taken up in further preparations for a desperate finish.

The primary object of this evening's election was to choose delegates to the State convention, but the candidates for these honors having all practically declared for Judge Farker for President and Hon. Charles V. Meredith for one of the district delegates to St. Louis, the question of preserving and perpetuating the present primary method of making The Issue before the Democrats of

question of preserving and perpetuating the present primary method of making party nominations has risen to a place of interest and importance in the struggle, which makes it easily the supreme issue of the hour.

Four Hours of Battle

Four Hours of Battle.

Four Hours of Battle.

The voting will be from 4 P. M. to 8 P. M., at all the usual polling places of the city, a full list of which are printed below, and all registered white Democrats are entitled to cast their ballots between the hours named. The returns will be received and made public by the City Democratic Committee at Sanger Hall at 8 o'clock to-night, and they are expected to be in promptly, as the count will not require a great deal of time.

There are no contests for delegates except in the Second Clay, Fourth Monroe and Third Marshall prednets, and it is understood that practically all the candidates are for Judge Parker and Mr. Meredith. But the battle over the primary principle is expected to rage fiercely from the opening to the closing of the polls, although the opponents of this oft-endorsed party tenet are doing their work quietly and without any flourish of trumpets.

A Plain Proposition.

A Plain Proposition.

Notwithstanding the strenuous efforts on the part of the enemies of the primary system, to becloud the Issue, the matter of voting this evening, on that question is a very simple one.

At the bottom of each ballot, the following words will be printed:

"Primary."

"Anti-Primary."

The voter, who desires that he shall be cut off from a direct participation in the nomination of candidates for public office, and that the party shall declare for a return to the old courthouse and ward meeting system, has but to run his pencil through the word 'primary," and he will have correctly recorded his views.

On the other hand those who believe in On the other hand, those who believe in On the other hand, those who believe in affording the freest expression in the matter of choosing candidates, and who desire the opportunity to vote directly for those who shall represent them in public places, will have only to erase the word, "anti-primary," in order to give proper expression to their wishes on the subject.

Making a Still Hunt.

The anti-primary people, who appear to be mainly the politicians, are making a "still hunt" for votes, and are not raising the issue against the principle in the open. The leaders were saying yesterday and last night that there would be no great interest in the contest, and that they expected but a small vote to be polled. They are evidently preparing to spring a surprise, however, for it "leaked out" last night that the lieutenants of the leaders had received word that they were expected to de their level best in the crucial test, which will come during the four hours of voting this afternoon and evening.

An Easy Guess. Making a Still Hunt.

An Easy Guess.

An Lasy Guess.

No one disputes the contention of the primary advocates, that Richmond is overwhelmingly a primary city, and if the quiet voter, composing what is known as the "rank and file" of the party here. shall turn out this evening, and take part in the primaries, every one, at all familiar with local conditions, can "call the turn" on the result before the vote is

Much has been said concerning the probable attitude of the working people with reference to the primary principle. with reference to the primary principle. Several of them were discussing the subject, with a representative of The Times-Dispatch last night, and they agreed that the best interests of the laboring classes, as well as those of all other good citizens, demanded that they should keep themselves in a position to be able to express their preferences directly, as between the men who offer themselves for public office. public office.

Will Decide Much.

will Decide Much.

The issue which is to be rought out here in the contest this evening, will mean much to the primary principle throughout the State. If by a failure of the people to turn out, Richmond shall register here vote against the principle, it is the deliberate judgment of many well posted ones, that the anti-primary people of the State, will bring the matter up in the convention here on June 9th, and push through a resolution declaring for the old time method of party nominations. The only other question of interest to be determined in the Richmond and Henrico primaries to-day, is who shall represent the city and county on the State Central Committee. The incumbents are Colonel John S. Harwood and Mr. John J. Lynch, from this city, and Mr. John J. Lynch, from this city, and Mr. John G. Easley, from the county, They are all standing again.

Mr. Clyde W. Saunders, of Richmond, and Sheriff Simon Solomon, of Henrico, both former members, are destrous of returning to the body. The county will elect delegates by precinct meetings this afternoon and evening.

The outlying precincts will vote at 4 o'clock and those near the city at 8 P, M.

CURED BY CUT!CURA

One Application Soothed Him to Sleep. Oure Speedy and Permanent.

"When my little boy was about three months old his head broke out with a rash, which was very itchy and ran considerable watery fluid. We tried everything we could, but he got worse all the time till it spread to his arms, legs, and then to his entire body, and he got so bad that he came near dying. The rash would itch so that he would scratch till the blood ran, and a thin yellowish stuff would be all over his pillow in the morning. I had to put mittens on his hands to keep him from tearing his skin around his wrists. He got so weak and run down that he took fainting spells like we would think him dying. He was almost a skeleton and his little hands were thin like claws.

"He was bad about eight months when we tried Cuticura Remedies. I had not laid him down in his cradle in the daytime for a long time. He had got so that he just siept in our arms all the time. I washed him with Cuticura Soap and put on one application of Cuticura Ointment and he was so soothed that I put him in the cradle. You don't know how glad I felt when he felt better. It took one box of Cuticura Ointment, pretty near one cake of Cuticura Soap, and about half a bottle of Cuticura Resolvent, to cure. I think our little boy would have died only for the Cuticura Remedies, and I shall always remain a firm friend of them."

DE NAVENNE NOT TO STAY

The French Minister at the Vatican, Like the Ambassador, Is Withdrawn.

LORENZELLI GIVES OFFENSE

His Reference to "Replying to Provocations" Causes a Stir, But He Explains.

(Special to The Times-Dispatch.) PARIS, May 23 .- M. Nisard, the former embarsador of France to the Holy See, arrived here to-day and conferred with Foreign Minister Deleasse relative to closing negotiations with the papal secretary of State, Cardinal Merry Del Val. It is announced that the ambassador was recalled in the full sense of the diplomatic term, the French government having given up its first plan to give him indefinite leave of absence. The rupture is further emphasized by the determination of France to withdraw M. De Navenne, its minister at the Vatican. When the rupture was first decided upon, it was the intention to continue

can. When the rupture, was that actuated upon, it was the intention to continue M. De Navenne at Rome, as charge de affaires, for the purpose of transacting routine business.

'M. De Navenne is now here on leave, and it has been decided that he shall not return to take up his duties as minister. This leaves M. Sartiges with the rank of second secretary, to carry on the routine business of the Vatican embassy. It is understood that the public statements of M. De Navenne apparently defending the Vatican's course, have contributed to the decision that he shall not return. Papal Muncio Lorenzelli, gave out an explanation to-day of his statement that he would not leave "because, Rome has no taste for replying to provocations." The latter expression was construed as likely to give further offense to the French government, and as leading to another diplomatic incident. Monsignor Lorenzelli, therefore, explains that the word "provocations" did not refer to tage, action of the French government, which had a perfect right to withdraw its ambassador, but to French newspapers in suggesting the call.

MATTER ASSUMES MORE SATISFACTORY PHASE

ROME, May 23.-Information received ROME, May 16.—Information received from France by the Vatican authorities to-day indicates that the situation growing out of the papal protest against President Loubet's visit to Rome, and the recall of Ambassador Nisard has assumed a more satisfactory phase. It is understood that the Vatican has been assured that the government, unless comunderstood that the Vatican has been assured that the government, unless compelled by the action of the Chamber of Deputies, practically intends to allow the matter of Cardinal Merry Del Val's note to drop, thus vaolding a conflict with the Holy See before the general elections of 1965.
